

The background is a vibrant green with various illustrations of fruits and leaves. There are several whole and sliced oranges, almonds, and what appear to be cacao pods or similar fruits. The style is flat and colorful.

# FRUIT & VEGGIE PUREE PIECES

As Arlina Food, We offer you a wide range of fruit and vegetable puree pieces made of 100% fruits and vegetables with organic options. Customized flavors can be developed with natural ingredients regarding customer needs and also your own formulation can be produced in a specialized way.

Our fruit and vegetable pieces are no sugar added; only have the taste and sweetness coming from fruit and vegetable itself, vegan, gluten-free and no artificial flavors and no additives added.

This allows the products to preserve the organoleptic properties of the fruits and the vegetables in their most natural state.

Size of the product, package portion and coating can be adjusted according to customer demands as well as different shape options.

These products, in addition to being consumed as tasty and healthy snacks, can also be used as ingredients in other final products.
